

SAMSUN NAMIK KEMAL HIGH SCHOOL-ETWINNING PROJECTS

Healthy Generations

Our deputy manager İbrahim ALTUNTAŞ ,English language teachers Saadet ÇADIR and Selin AK TEZGÖREN started an eTwinning Project called Healthy Generations which was attended by 16 teachers 127 students from 10 countries, as a project partner. Our Project has been awarded with National and European Quality labels.

Healthy Generations is among the top 5 projects as examples of good practice, which were awarded the highest marks in Serbia.

More information about our Project can be reached at;

http://samsunnkal.meb.k12.tr/icerikler/healthy-generations-e-twinning-project_9750143.html

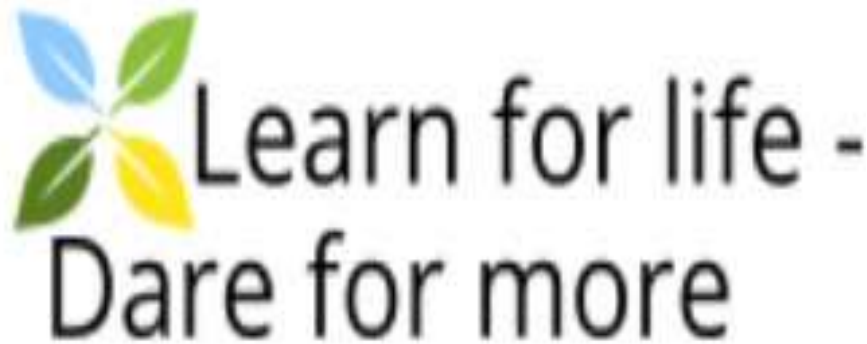

HEALTH4ALL

Our deput English language teacher Selin AK TEZGÖREN have started an eTwinning Project called Health4all which was attended by 12 teachers 95 students from 7 countries, as a project partner. Our deputy manager İbrahim Altuntaş also takes part in the project. The Project also was applied for Erasmus plus Ka229 project in 2020. It is an ongoing Project and will finish next year.

More information about the project can be reached at:

http://samsunnkal.meb.k12.tr/icerikler/health4all_9159912.html

Learn For Life Dare for More

Our Project is based on our ongoing Erasmus plus Ka229 project. We have four other partner schools from Bulgaria, Estonia, Latvia, Romania.

Our aim is promote our project and share our activities with etwinning users. It is focused on cooperation for exchange of good practices between schools. Its activities are designed to cover topics related to entrepreneurial education, ICT new technologies and basic competences in the field of Maths.

The objectives of the project are to enable students with practical experience in running and working for a company; to develop entrepreneurial and digital skills; to improve transversal and communication skills; to enhance participants' English language skills and raise students' awareness about their personal qualities; to develop basic skills in Maths and combat the early school leaving and the last but not least to develop further the so-called 21st century skills.

GET REAL NOT VIRTUAL

English language teacher Selin AK TEZGÖREN has started an etwinning Project titled “Get Real Not Virtual” with 5 partner schools from different countries. It is an ongoing Project. It is relevant to Erasmus plus ka229 project “ Get Real not Virtual but Equal”

The project aims to draw young people’s attention to worldwide problems such as social media and net working addiction, obesity and promote slow food movement (whose aim is protecting biodiversity and providing good, clean and fair food) against Fast Food through various activities which are not only practical but also useful and enjoyable. We have Erasmus plus ka229 project based on this Project.

Surveys

Our students prepare surveys for our projects

Dietary Habits survey

Dear students,
We are very interested in your nutrition habits and for this reason, hope you can spare a few minutes to complete this online survey.
We would like to reassure you that all findings will be strictly anonymous and no responses will be attributed to individuals. The information is invaluable but will be used only in adapting the project activities so as to manage our project's aims.

Namık Kemal Anadolu Lisesi hobi bahçesi kuruldu

SAMSUN Namık Kemal Anadolu Lisesi'nin bahçesine, öğrencileri doğaya ve toprağa yaklaştırma konusunda etkili olacağı düşünülmüş hobi bahçesi kuruldu.

Namık Kemal Anadolu Lisesi'nde yürütülmek olan AB Eğitim ve Gençlik Programı projeleri kapsamında okulun bahçesinde hobi bahçesi oluşturuldu. Ata tohumlarının biriktirildiği ve organik tarıma yönelik çalışmaların yürütüldüğü hobi bahçesi, öğrenci ve öğretmenlerin yoğun ilgisini çekti.

Hobi bahçesine, yöreden elde edilen ve çoğunlukta üretimi yapılan tohumlar ile soğan, sarımsak, patates ekildi, çilek dikimi yapıldı. Ayrıca okul laboratuvarında oluşturulan alanda domates, hiber, kavun, karpuz, dereotu, kabak gibi ürünler fide haline getirilmek üzere ekimi yapıldı. Mevsimi geldiğinde hobi bahçesine dikimi yapılacak. Okulda yapılan çalışmanın, öğrencileri doğaya ve toprağa yaklaştırma konusunda etkili olabileceği değerlendiriliyor.
